RESEARCH & WORK EXPERIENCE

Physics analysis – Data calibration and analysis

Leading analyst Iowa State University & Brookhaven National Lab

📅 Aug 2017 – Current

📍 Ames, IA, U.S

🔔 Monte Carlo simulation of proton-proton collision and Drell Yan $Z^0/\gamma^* \rightarrow e^-/e^+$ analysis, extract e^-/e^+ signal pair from background which is 10^6 larger than the signal. By using **machine learning method of boost decision tree**, we can improve signal/background ratio in 2 order (10^2).

🔔 Experimental data calibration and analysis, using gaussian and polynomial fitting for calibration.

🔔 Develop c++ classes for data calibration and analysis, and a lot of effort for plotting and data visualization.

Shell scripting

C/C++

R/Python

Perl

Machine Learning

Experiment – Detector assemble and maintenance

Detector expert Brookhaven National Lab & Iowa State University

📅 May 2016 – Aug 2017

📍 Upton, NY, U.S

🔔 Assembled our scintillator detector which called FPOST, tested and calibrated silicon photomultiplier (SiPM) device.

🔔 I was the FPOST detector maintenance expert during the experiment.

Oscilloscope

Electronics

Electric circuit

C/C++

Shell scripting

Model Simulation and detector operation

Leading analyst Lanzhou Heavy Ion Accelerator National Lab

📅 Aug 2011 – Jul 2014

📍 Beijing & Lanzhou, China

🔔 Model simulation and experimental data analysis of $^{40}\text{Ca} + ^{40}\text{Ca}$ and $^{129}\text{Xe} + ^{120}\text{Sn}$ collision, a paper published.

🔔 Detecting cosmic ray muons to obtain experimental skills.

C/C++

Shell scripting

Oscilloscope

Electric circuit

EDUCATION

Ph.D, majoring in nuclear physics

🎓 Iowa State University (ISU)

📅 Aug 2014 – Current

📍 Ames, Iowa, U.S

MSc, majoring in nuclear physics

🎓 Institute of Modern Physics, UCAS

📅 Sept 2012 – Aug 2014

📍 Lanzhou, China

MSc, first year, major in nuclear physics

🎓 University of Chinese Academy of Sciences (UCAS)

📅 Sept 2011 – Aug 2012

📍 Beijing, China

BSc, major in physics

🎓 Zhengzhou University (ZJU)

📅 Sept 2007 – Aug 2011

📍 Zhengzhou, China

SKILLS

C++

🔔 Mainly working tool to analyze our huge (100T) experimental data under framework [ROOT](#).

🔔 Develop classes to deal with data and visualize the data.

Machine Learning

🔔 Apply machine learning methods under multi-variate data analysis toolkit framework [TMVA](#).

🔔 Familiar with [scikit-learn](#) and [TensorFlow](#). Check my [machine learning classification project](#) in nuclear physics.

R & Python

🔔 Mainly use them to deal with and visualize simple data.

🔔 Use them to make automation data visualization videos for hobby.

SQL

🔔 Self learning, have certificate from [kaggle](#).

🔔 Mainly implement SQL query through our c++ interface.

Others & Linux related tools

🔔 Shell scripting, Perl, Gnuplot, Fortran

🔔 \LaTeX , Vim

HONORS & ROLES

Student academic career

📅 2016 – current RA Scholarship

📅 2014 – 2016 TA Scholarship

📅 2011 – 2014 Fellowship

📅 2007 – 2011 Third Prize Scholarship

Passionate

Proactive

Self-discipline

Independent thinking

Critical thinking

Activities

English Corner organizer in 2013 – 2014.
Member of Open Source Association of USCA during 2011 and 2014.

Social skills

Teamwork

Open minded

LANGUAGES

English

Fluent

Chinese

Native
